MEMORANDUM TO: Chief, Resources Division, ORR

25X1A

ATTENTION :

THROUGH :

FROM :

SUBJECT :

Chief, Requirements Branch, Reconnaissance Group, CGS

Chief, CIA/PID(NPIC)

Search for the reported Hydro Electric Power Plant near
Wu-Chiang-Chi, Communist China

REFERENCES : (1) ORR Requirement - 41/62 (Revised 17 June 1963)
(2) CIA/PID Project No. C 758/63

1. This memorandum is forwarded in response to your above mentioned requirement which requests search and detail concerning a reported hydro electric power plant near Wu-Chiang-Chi, Communist China. The reported location was given at geographic coordinates 28 29N - 110 53E.

2. No hydro electric power facilities were identifiable at the reported location on the photography utilized in this study. The only possibility discernible within a 30 nm radius of the reported location is the facility shown on the enclosed photograph. Although obliquity precludes detail interpretation, this facility does appear to be a possible hydro electric power plant. The plant might be the reported facility since it is located approximately 15 nm southeast of the reported location, at coordinates 28 19N - 111 07E. The dam and reservoir are clearly visible. A possible generator hall is located at the base of the dam just east of the light-tone gate section. The dam and associated activity appear to be served by good roads leading into the area along both banks of the TZU SHUI (R) from the direction of TUNG-PING.

25X1D

3. The only cloud-free photography available over the search area was taken from [REDACTED]. The photo quality was fair-to-poor which was due mainly to obliquity and target distance from camera.

25X1A

4. The photo analyst assigned to this project was [REDACTED] who may be contacted on extension 2607 should any questions arise concerning this study. This memorandum and enclosure completes this requirement.
